

Extraclean

Product for the deep cleaning of the varnished and oiled hardwood flooring Listone Giordano® dirt or marked from the works after the installation.

Directions for use

Shake well. Water down the Extraclean Listone Giordano® at the 50% or 66% (2 parts of Extraclean and 1 of water).

Poor onto the floor and wipe by a cotton cloth in typical action of deep cleaning of a surface in order to remove the dirt by means of chemical and mechanical action.

This operation can be done also by a single-brush buffer machine fitted with a white pad and a soft cotton cloth.

After the application of Extraclean Listone Giordano®, you will have a liquid contaminated with the dirt that you will have to remove very carefully avoiding that it remains on the floor (dry this liquid by means of soft cotton cloths or extractor liquids fan).

Leave the floor dry not using any product nor buffing.

In case of need repeat the cleaning operations two times consecutives.

For natural oil finished hardwood floors, after the application of Extraclean Listone Giordano®, particularly if applied all over the parquet surface, it is recommended a periodical care treatment with Oleovivo® Listone Giordano (see PM 15 – Oleovivo information sheet for directions for use).

After its application the hardwood flooring will be well cleaned and it will be possible to identify some area still marked or soiled.

A 1 litre bottle of Extraclean diluted with water is generally sufficient for treating a surface area of approximately 40–50 m².

PM 22 – April 2009
